

It's renters insurance, but it really should be called your stuff insurance. It protects the things that matter to you like your clothes, furniture and electronics. It also protects you with liability coverage. And it does it all for less than you might think.

"People living in apartments may not automatically think about insurance, but Safeco can really help match a policy to their needs."

Protect the things that matter to you

You have a lot of things that are important to you—from your clothes and furniture to your sound system, sports gear and computer. That's why we include personal property protection in your policy, and it travels with you wherever you are in the world. Choose Full Value Contents® protection and we'll pay the full replacement cost of your things that were stolen without deduction for depreciation, up to the limits and deductibles you select.

Protect yourself and your guests

You need to feel confident that all you've worked for is not at risk. Our renters insurance policy protects you and your family against bodily injury and property damage claims and litigation up to the limits you select. And if a visitor is injured in your residence or by you or a household member, we pay covered medical expenses, to the limits you select.

The secret to selecting the right amount of coverage

Whether you're starting out, between homes or downsizing, your agent will help you pick the coverage that best fits your needs. Ask about discounts for burglar alarms and for having multiple policies with Safeco.

Extra coverage doesn't have to cost a lot

We also offer other coverage that you may want to add to your renters policy. Many people supplement their renters insurance with personal umbrella liability insurance for broader protection. And if you have special possessions such as jewelry, art, antiques or collectibles—ask about our scheduled personal property coverage that comes with no deductible when you suffer a covered loss.
